

# Specification

## Compound Information

Name	2-Ethylbut-2-enal	Structure
CAS Number	19780-25-7	 The structure shows a central carbon-carbon double bond. The left carbon is bonded to a methyl group (H <sub>3</sub> C) and a hydrogen atom. The right carbon is bonded to an ethyl group (CH <sub>2</sub> -CH <sub>3</sub> ) and an aldehyde group (-CHO).
Catalog Number	A440058049	
Molecular Formula	C <sub>6</sub> H <sub>10</sub> O	
Molecular Weight	98.15	

## Test Summary

Items	Specification
Appearance	Colorless to yellow liquid
NMR spectrum	Conforms to structure
GC	≥ 95%

Version: 1
