

Specification

Compound Information

Name	tert-Butyl 4,4,4-trifluoro-3-oxobutanoate	 The structure shows a tert-butyl group (three methyl groups attached to a central carbon) connected via an oxygen atom to a four-carbon chain. The third carbon of the chain has a carbonyl group (C=O), and the fourth carbon has three fluorine atoms (CF ₃).
CAS Number	26717-75-9	
Catalog Number	A440084004	
Molecular Formula	C ₈ H ₁₁ F ₃ O ₃	
Molecular Weight	212.17	

Test Summary

Items	Specification
Appearance	Colorless to yellow liquid
NMR spectrum	Conforms to structure
GC	≥ 95%

Version: 1
